

**Mekorot Water Company Ltd.
Procurement & Logistics Division**

**Public Tender R – 49/2021
For the Supply of Pipe Assembly for Line Shaft Vertical Turbine
Pumps (Pipe Assembly)**

Threshold Update

The original Threshold described in section 8.1 which states:

"The Bidder is a certified manufacturer of Pipe Assembly for Line Shaft Vertical Turbine Pumps and/or Pipe Assembly for Water Lubricated Line Shaft Vertical Turbine Pumps and/or Pipe Assembly for Oil Lubricated Line Shaft Vertical Turbine Pumps according to API 5L+API 5B Standards, OR a supplier who represents an Israeli manufacturer OR a foreign manufacturer (one which complies with the requirements above). If the Bidder is not the actual manufacturer, then it is necessary to enclose an approval from the manufacturer, stating that the Bidder is the representative of the manufacturer in Israel and is authorized to market the manufacturer's products. If the Bidder is a foreign manufacturer, the requirement is to have a representative in Israel approved by the manufacturer. Approval and particulars of the representative in Israel must be submitted. "

Will now be replaced by an updated version of section 8.1:

" The Bidder is a manufacturer of Pipe Assembly for Line Shaft Vertical Turbine Pumps and/or Pipe Assembly for Water Lubricated Line Shaft Vertical Turbine Pumps and/or Pipe Assembly for Oil Lubricated Line Shaft Vertical Turbine Pumps, OR a supplier who represents an Israeli manufacturer OR a foreign manufacturer. If the Bidder is not the actual manufacturer, then it is necessary to enclose an approval from the manufacturer, stating that the Bidder is the representative of the manufacturer in Israel and is authorized to market the manufacturer's products. If the Bidder is a foreign manufacturer, the requirement is to have a representative in Israel, approved by the manufacturer. Approval and particulars of the representative in Israel must be submitted."
